

OPEN STUDIOS **BORGERSTRAAT**

BY WAY OF DETOUR EXHIBITION

Studios Borgerstraat is a number of artists working in a studio building in Rotterdam Spangen. During our Open Studios, we present works by resident artists, collective Atelier Unie Rotterdam and invited guest artists. We aim to create unique collaborations with a diversity of individuals and collectives in the field of art, design and unexpected contributions. We strive to unfold and reconnect to traces of ongoing movements and aspirations in the field of art and design and now.

ATELIER UNIE ROTTERDAM

IS ROTTERDAM STILL SUCH A GREAT PLACE FOR ARTISTS?

Buildings where people practice their creative profession are increasingly being sold or demolished. SKAR and other providers have less and less affordable workspace available to meet the ever-growing demand for space. Because the voice of artists and makers is insufficiently represented in the discussion about the space shortage in Rotterdam, a platform is being set up where they can unite and share experiences. This platform is Atelier Unie Rotterdam: grootrotterdamseatelierenquete.com
